Advantages & Values Offered

- **Price and Quality Analysis over 500 Manufacturers**
 - Compare prices and quality of various suppliers in Turkey to prepare you the best offer right from the source.
- **Quality Control**
 - Follow up production process and quality control in the factories and finally in our warehouse before shipment.
- **On Time Delivery**
 - All shipments will be coordinated and shipped at once and on time for reduced expenses and less papperwrk for the customer.

Advantages & Values Offered

- **Reduced Purchasing Costs**
 - **Product Costs** : Since we have continuous business with the factories and we place different orders from many different customers our purchasing terms can be better.
 - **Logistics Costs** : We consolidate your orders in our warehouse and make a single delivery for you.
 - **Transportation Costs** :
 - **Import and Banking Costs** :
 - **Personel Costs** : Less personnel necessary to deal with various factories and their paperwork.

Advantages & Values Offered

- **Faster Lead Times**
 - Orders can be consolidated and shipped in 2-6 weeks depending on the size and the urgency of your orders.
- **Extensive product development program**
 - The product group that you are interested in can be developed with various suppliers in order to provide the full range.
- **Meet your Minimum Order Quantity Requests**
 - Smaller orders can be handled and shipped along with larger quantities and other orders.

Advantages & Values Offered

- **Supplier search and qualification**
 - We can find the right manufacturer for the auto part you are looking for and provide full information about the capabilities and qualifications.
- **Custom brand packaging and labelling**
 - Custom packaging and labelling can be prepared if minimum quantities are met. This will save labor costs for the customer.
- **Ability to ship your goods directly right to your warehouse at competitive prices**
 - We can provide competitive prices for transportation to your country/warehouse through our network of shipping companies.

Supplier Selection Process

- Work with more than 500 Turkish OEM and aftermarket auto parts manufacturers in Turkey.
- We check :
 - Production facilities.
